

Kindergarten Education Scheme

School-based Learning Activity of Chinese Culture

Name of School Yan Chai Hospital Yau Oi Kindergarten/Child Care Centre

School Year 2023-2024

Grade Level N-K3

Name of Activity

Chinese Cultural Day

Objective(s)

- To pique the interest of students in Chinese culture and spread the traditional Chinese culture, thereby deepening their understanding of the culture.
- To improve relationships between teachers and students by encouraging communication through games.
- To promote our school and enable people in our community to learn more about it.
- To learn and understand the rules of the games and improve parent-child relationships through games.

Brief Descriptions:

The goals of this academic year are to stimulate children's interest in Chinese culture and to promote traditional Chinese culture that deepens their understanding of Chinese culture. To enrich children's learning through diversified games and experiences and to enable them to acquire knowledge through personal experience. We have also invited a professional face-changing master to perform a wonderful Sichuan Opera face-changing act for the children, in addition to magic tricks and acrobatics, so that they can interact with the children. Additionally, various Chinese art performances and traditional booths were set up at our school, Yau Oi Plaza, and our sister primary school, where children could experience a number of Chinese ancient games, such as wooden shooting, cuju, and touhu. Meanwhile, they could also do craft works like windmills, scented sachets, and dough figurines, enjoying their time with their parents.

Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
